

ARML rank in each year 2013-2017 of the various teams from the top regions. For example, C team means the third highest scoring team from the region, and the numbers are their ranks among all C teams. To be included in the C-team table, a region must have had at least three teams all five years. For example, no number 1 D team is listed for 2014 because Minnesota had the top D team that year, but only three teams in 2013. Tied teams are given the average rank; for example, a tie for third and fourth is called 3.5.
