This collection consists of fourteen student oral history projects related to Lehigh University. The course (History 303) was taught by Professor Kim Carrell-Smith in the Fall semester of 2003. Through the course, the students studied the standards of oral histories and as a final project interviewed Lehigh alumni, staff and faculty about Lehigh University, its history, traditions and experiences. Some of the interviews are restricted since the interviewees did not sign the release forms (see notes and marks).

Materials include audio and video tapes, release forms, and transcripts and were given to the Special Collections by Prof. Kim Carrell-Smith on January 27, 2006.
