

Lehigh University Center for Optical Technologies

Feel the Need for Speed !!!

Join Northampton Community College's Optoelectronics Technology Program
and learn about technology shaping the future of communications.

Our Associate Degree program provides second year studies for students enrolled in Electronics or Engineering Curricula. It begins with a foundation in Physics and/or Electronics and continues with advanced coursework in Optoelectronics and Fiber Optic Systems Manufacture, Installation and Testing.

Coursework includes:

Technology of Telecommunications

Optoelectronics I

Fiber Optic Systems Test and Measurement

Installation and Testing Fiber Optic Systems

DWDM (Dense Wavelength Division Multiplexing)

Optoelectronics Practicum

Highway to High-Tech

Our School Outreach Program is designed to get young people excited about opportunities in Optoelectronics and Technology disciplines.

For more information on the Optoelectronic Program or Educational Outreach Program at Northampton contact Keith Hartranft at 610-332-6096 or visit our website at www.northampton.edu.
