- Gave information to RHA about coins so that they will bring it up at their meeting
- New contact for trash cans

Goals for this week:

- Contact administrators to follow up on Ulrich.
- Set up a meeting with RHA
- Follow up with bus stops for progress check
- Choose new projects

Transportation

Chair: Hilary Lewis

Goals from last meeting: Find out what has been done about TRACS. Meet about signs and set up focus groups for regular bus. Set up meeting about Wegmans bus. Also add advertising about GIANT market next to Wal-Mart in case it is too expensive to go to Wegmans.

Progress made from last meeting: Had a meeting with Bryn about signs at bus stops and she made it sound like that was definitely a possibility. She forwarded the idea to Chris and Mark and we are waiting to hear back from them. One new development is a GPS system in TRAC vans. Students will be able to see where the van is online so that they are easier to catch. If it is used it will be added to the regular bus. We also discussed the state of roads during snow/ice season.

Goals for this week: Get in touch with Chris about the bus. Come up with a focus group for transportation services. Make a prioritized list of places to de-ice to show maintenance just so they have student perspective on ice priorities. Also look into setting up a link to work orders for ice on the Senate page or through some other medium.

Action steps to take this week: Compile list of students willing to be in focus group. Find out about technology that can help with reporting bad ice areas.
