

1. Instructor: B. Dodson, Room 207 XS, Phone x8-3745, Email bad0.
2. Text: Differential Equations and Linear Algebra, third edition, by Stephen W. Goode and Scott A. Annin. ISBN-13: 978-0-13-045794-3.
3. Attendance is required in class. Homework will be assigned in each period and should be completed before the next class.
4. There will be 100 points for short quizzes given during lecture. No make-ups will be given, but your lowest quiz score will be dropped. The problems will either be taken directly from the assigned homework problems, or will be similar to assigned problems.
5. There will be two in-class hour exams, which count for 100 points each. The dates of these exams are Tuesday, June 7 and Tuesday, June 21. Our third exam will be a 90-minute exam, in-class, on Thursday, June 30, and will count for 150 points. The third exam will include some cumulative material from the first two exams.
6. Grades are based on your score out of the above 450 points. Exams and quizzes will be based on homework.

**HOMEWORK ASSIGNMENTS:**
