ONE POST-DOCTORAL RESEARCH ASSOCIATE Department of Civil and Environmental Engineering Lehigh University

Professor Dan M. Frangopol is looking for one Post-Doctoral Research Associate on projects related to life-cycle reliability, maintenance, health monitoring, management and optimization of civil and marine infrastructure systems. Candidates must have a Ph.D. and background and research accomplishments in structural engineering in one or more of the following areas:

Structural Reliability and Probabilistic Methods, Monitoring-Maintenance-Management-Cost of Civil and Marine Infrastructure (particularly bridges and ships), Structural Optimization, and Life-Cycle Engineering.

Starting date is February 2017, but this is negotiable.

Lehigh has internationally respected programs and outstanding structural research facilities including the Computational Laboratory for Life-Cycle Civil Engineering. The interdisciplinary research program brings together internationally recognized faculty and staff that have a well-established tradition of developing and implementing technology. Applicants should send a detailed resume, along with the names and addresses of three references to:

Geri Kery

Coordinator to Professor Dan M. Frangopol
Fazlur R. Khan Endowed Chair of Structural Engineering and Architecture
