

## **Nanotechnology Today 2010:**

### **NanoReg & Keller and Heckman Announce Continuation of Popular Nanotechnology Webinar Series**

Building on last year's popular webinars on the regulation of nanotechnology, Keller and Heckman & NanoReg are pleased to announce Nanotechnology Today 2010, a series of four new webinars designed to address important regulatory issues and the challenges associated with the safe development of nano-enhanced products.

Nanotechnology Today 2010 will focus on State regulation of nanotechnology in the absence of national regulation, the impact of nanomaterial regulation in Europe and North America, environmental applications of nanotechnology, and benefits and risk communication for nanomaterials.

This series features respected nanotechnology experts who work at the forefront of nanotechnology applications and implications.

#### **Webinar Dates and Topics:**

**July 20, 1010 State Regulation of Nanotechnology: What's Next?**

All webinars will be conducted from 11:00 a.m. – 12:30 p.m. (U.S. Eastern Time)

The webinars will deliver live content via the internet and can be attended from the convenience of an attendee's home or office where multiple attendees can participate for the cost of a single registration. The series offers small companies the assurance that they can keep abreast of nanotechnology science, policy, the law, and best practices.
