**Terry J. Hart '68**

Former NASA astronaut and Lehigh mechanical engineering and mechanics professor Terry Hart '68 is a distinguished and dedicated Lehigh alumnus and faculty member who has left his mark in the engineering, aerospace, and education spheres. Hart was a member of NASA's "Group 8," the first selection of astronaut candidates after a nine-year hiatus, and joined NASA's eleventh space shuttle team as a mission specialist.

Hart earned a Bachelor of Science in mechanical engineering from Lehigh in 1968. He holds a Master of Science in electrical engineering from Rutgers University and a Master of Science in mechanical engineering from Massachusetts Institute of Technology.

Hart began his engineering career at Bell Telephone Laboratories in 1968, working for a year before taking a four-year leave of absence to serve in the U.S. Air Force. Completing pilot training in 1970, he flew F-106 interceptors to protect America from attack. Honorably discharged

in 1973, he returned to Bell Labs where he received two patents for a mechanical safety device and a noise suppression circuit. After active military duty, he joined the New Jersey Air National Guard, from which he retired as a lieutenant colonel in 1990. During his military career, Hart flew more than 3,200 hours, mostly in fighter jets.

In January 1978, Hart was selected by NASA as an astronaut candidate and, after a year of training and evaluation, was assigned as a Mission Control Center CAPCOM (spacecraft communicator) for the first three space shuttle launches. He was aboard the STS 41-C Challenger space shuttle, launched from Kennedy Space Center on April 6, 1984. Hart and fellow Challenger crew members logged 168 hours in orbit above the Earth and were the first astronauts to repair a satellite from the shuttle. He also operated the IMAX camera in space for the documentary "The Dream is Alive" (1985). Hart carried a Lehigh banner with him on the Challenger mission.

After retiring from NASA in 1985, Hart continued a successful career in telecommunications with Bell Labs, AT&T, and Loral Skynet, from which he retired as president in 2004 to join Lehigh's P.C. Rossin College of Engineering and Applied Science faculty. A current professor of practice in the mechanical engineering and mechanics department, Hart has developed and teaches new courses in aircraft and spacecraft engineering in support of the department's aerospace minor, while advising students on a variety of NASA research projects.

Hart is a member of the American Institute of Aeronautics and Astronautics, the Institute of Electrical and Electronics Engineers, the Tau Beta Pi engineering society, and the Sigma Xi scientific society. His honors and awards include induction into the Space and Satellite Hall of Fame, the NASA Space Flight Medal, and the U.S. Air Force Commendation Medal, among others.

While an undergraduate at Lehigh, Hart played for the varsity golf team and was president of Delta Upsilon. He has remained an engaged alumnus and is a generous supporter of the university. In 2013, he received Lehigh's Alumni Award, bestowed for many years of service, loyalty, and dedication to the university.

Hart; his wife, Mary Jane McKeever; and their son live in Hellertown, Pennsylvania. Hart also has two adult daughters.

# About the President

---

## *John D. Simon '19P*

John D. Simon, Lehigh's 14th president, is an internationally renowned chemist and highly respected leader in higher education.

During his time at Lehigh, President Simon has worked to raise the university's national profile, strengthen and grow its research infrastructure, expand

its global programs, and build on its long, proud legacy of success in teaching, research, and service.

In the fall of 2016, the Lehigh Board of Trustees endorsed Simon's ambitious growth plan for the university, one which has seen Lehigh embark on a significant expansion of both its undergraduate and graduate student populations; recruit additional new faculty; build new science, research, and student housing facilities, while also renovating some of the university's most iconic buildings; and launch a new college focused on health.

Simon has also overseen Lehigh's efforts to build a stronger presence on the West Coast. In early 2017, the university opened its first Western Regional Office in San Mateo, California, and entered into a partnership with the Nasdaq Entrepreneurial Center in San Francisco. The university is leveraging these initiatives, as well as other Silicon Valley-based programs, to better connect with West Coast alumni, create strategic industry partnerships, and cultivate a stronger admissions presence in the region.

President Simon came to Lehigh from the University of Virginia where he served as executive vice president and provost. In that role, he was responsible for the academic administration of each of the university's 11 colleges, as well as its library system, art museums, public service activities, and foreign study programs. In all, Simon oversaw the academic activities of 2,200 instructional and research faculty, 14,500 undergraduate students, and 6,500 graduate students and managed a budget of \$1.4 billion.

During his tenure at Virginia, Simon spearheaded a number of global initiatives, including the establishment of a new major in global studies and the opening of a physical presence for the university in Asia. He played a leading role in launching UVA's cutting-edge Data Science Institute, as well as its Advanced Research Institute, and in creating the university's Endowment for the Arts. He also appointed several deans and oversaw the hiring of several hundred faculty.

Simon served as vice provost for academic affairs at Duke University from 2005 to 2011. During his time at Duke, he guided the university's strategic planning process and drove initiatives aimed at connecting the humanities, social sciences, and sciences. He was chairman of Duke's department of chemistry from 1999 to 2004 and also held appointments in the Duke University Medical Center in both biochemistry and ophthalmology.

Simon received his B.A. from Williams College in 1979 and his Ph.D. from the department of chemistry at Harvard University in 1983. After a postdoctoral fellowship at UCLA, he joined the department of chemistry and biochemistry at the University of California San Diego in 1985 and then moved to Duke University as the George B. Geller Professor in 1998.

President Simon is married to Diane Szaflarski, and they have two sons, Evan '19 and Alec.
